

### 3.0 Minervans

*Q. Why do I have to pay extra points for standard Leman Russ tanks? Shouldn't they be free like they are in the Steel Legion list?*

A. The Leman Russ Company is actually the same point cost as a typical Steel Legion company. With a base cost of 425 points, nine Leman Russ tanks at 20 points would cost an additional 180 points, and one Vanquisher would cost another 45 points. This totals 650 points which is identical to the Steel Legion list.

Point costs were simply reorganized for this list to accommodate the variant tanks available to the Minervans.

*Q. In the original Raiders book, the chart was done differently where the Leman Russ was free. Have the points changed?*

A. No. The original chart was eliminated to avoid subtraction during army building. That chart is still available below (see Appendix B).

*Q. Why are there no datafax boxes for the Titan Legions or Imperial Navy? Aren't they allowed in the list?*

A. The datafax boxes and unit descriptions can be found in the Epic: Armageddon book and in the free download available from the Games-Workshop website. They were not included in this book for simplicity sake, however a quick reference chart has been added in the **Raiders 2.0** version for your convenience.

### 4.0 Necrons

*Q. What happens if I have a Phalanx off board that fails its activation roll?*

A. The formation is left with the same options that a normal formation may do which is a hold action. Since shooting is not possible off board, the Phalanx would only be able to move through an available portal or regroup, removing blast markers.

*Q. Does this mean that my units with the Necron ability can regenerate off board?*

A. Yes and No. As per the *Necron* ability rules, formations with Necron units may regenerate one unit at the end of the turn regardless of their location. However, formations off board are restricted from using their regrouping to regenerate *Necron* units.

*Q. Can a Necron formation marshal on the board, move off the board, and then regenerate units?*

A. Yes, since the formation began its activation on the board this would count as regenerating on board, even though the move terminated off board.

*Q. Can a Necron formation marshal off the board, move onto the board, and then regenerate units?*

A. No, since the formation began its activation off the board this would be restricted under the *Necron* rule.

*Q. Can a Monolith that is part of a broken formation still use its portal?*

A. Yes, as long as it has not been used already during the current turn. The same rule applies to Abattoirs and Warbarques and their respective portals.
