

## ORKIMEDES' GARGANT BIG MOB ARMY LIST

*"We've got our Gargantz an' we've got our weapons. Wot ain't we got? We ain't got anything for target practice iz wot!"*

*Warlord Dragnatz*

### Forces

The Orkmedes' Gargant Big Mob Army List uses the datasheets from the Gargant Mob Forces section.

### Using The Army List

The following army list allows you to field an Ork army that is based on Orkmedes' Gargant Big Mob that fought in the Third War for Armageddon. It can also be used as a "stand in" army list for other Gargant mobs as well.

Orkmedes' Gargant Big Mob formations come in three types: *Gargant*, *support* and *aircraft formations*. Each Gargant formation you include in the army allows you to field any three support or aircraft formations. Additionally, no more than one third of the points available can be spent on aircraft formations. Although you can only take a support or aircraft formation if you first take a Gargant formation, they are treated as separate independent formations during a battle and do not have to move around together.

Unlike the very rigid formations used by the Imperium, Ork formations vary widely in both size and composition. The rules for creating Ork formations reflect this. The different types of Ork formations you may choose are shown on the army list that follows, which the following information:

**Type:** The name of the formation.

**Core Units:** The units that make up the formation. An Ork player can choose to double or triple the number of units in the formation if he wishes. A formation with double the normal number of units is called a *big* formation, and a formation with three times the normal number of units is called a *'uge* formation.

**Cost:** Most Ork formations have three values. The first value is the cost for the basic formation, the second is its cost if it is a big formation, and the third value is its cost if it is a *'uge* formation. If the formation only has one cost then it may not be increased in size.

**Upgrades:** An Ork formation may include upgrades. Which upgrades a formation may be given are listed in the "Upgrades" column. Each upgrade that is taken adds to the cost of the formation, as shown on the Gargant Mob Weapons and Upgrades charts. You may include any number of upgrades in a formation unless it is specifically noted otherwise. If there is a limitation then the limit is doubled for a big formation and tripled for a *'uge* formation. For example, a normal sized Loota Warband can include 0–1 Oddboy, a big can include 0–2, and a *'uge* 0–3. All of the core units and upgrades in an Ork formation count as being part of one large formation. The different units

may not move off on their own.

Each Gargant, Great Gargant and Soopa-Stompa comes with exactly three Gargant and/or Soopa-Stompa Weapons. The cost of these are found in the Gargant and Soopa-Stompa Weapon charts and are not included in the cost for the formation. They are mandatory upgrades that the formation must take and pay for.

### Special Rules

The *Mob Rule* (see *Mob Rule*) and *Power of the Waaagh!* (see *Power of the Waaagh!*) rules apply to all formations.

#### SPECIAL RULE

##### *Orkmedes' Gargant Big Mob Epic Tournament Special Rules*

Every Orkmedes' Gargant Big Mob army *must* include a supreme commander character called a Mekboy Big Boss. The Mekboy Big Boss character is free, you don't have to pay any points for it. The Mekboy Big Boss will join the most expensive Gargant formation in the army.

All *Weapon Mounts* in Supa-Stompa Mob and Gargant formations must be mounted with a weapon.

#### SPECIAL RULE

##### *'Ere We Go!*

Before passing an action test a Gargant formation may declare that it is using *'Ere We Go!* Formations using *'Ere We Go!* increase the Speed value of all their War Engine units by +5cm until the conclusion of their action. However, for each move of the action each War Engine unit suffers its critical hit effect. For example, if a Great Gargant formation carries out a double action then the Great Gargant unit catches fire twice and resolves the effects of those fires in the end phase. Whether a unit moves 0cm or less than its increased Speed value does not matter, it is still considered a move for the purposes of this rule.

## ORKIMEDES' GARGANT BIG MOB ARMY LIST

OrkimeDES' Gargant Big Mob armies have a strategy rating of 3. All formations have an initiative rating of 3+, but receive modifiers depending on the action chosen when activating (see *Power of the Waaagh!*), or the size of the formation when rallying (see *Mob Rule*).

### SPECIAL RULE

#### *Weapon Mount*

*Weapon Mounts* are areas on a unit that may be fitted with weapon systems. When a weapon mount is mounted with a weapon (a “character” unit) it gains all the abilities and special rules of the weapon while retaining any of its own. A weapon mount may only be mounted with one weapon.

### SPECIAL RULE

#### *Mob Rule*

Orks believe that as long as there’s a bunch of them still fighting together (slightly more than they can count up to is ideal!) then there’s always a chance that they’ll prevail, no matter the odds. To represent this, Ork formations with more than five units (i.e., too many to count on the fingers of one hand), not including Gretchin or Big Gunz units, receive a +1 modifier to any rally rolls they make, and formations with more than ten such units receive a +2 modifier. For the purposes of this rule Gargants count as having more than ten units and Supa-Stompa’s count as having more than five units. All other war engine’s count each point of starting damage capacity as a unit.

### SPECIAL RULE

#### *Power of the Waaagh!*

Orks are not noted for their organisational abilities, and thus usually have a pretty low initiative rating. However, if there is one thing that will galvanise an Ork warband, it’s the thought of a good punch-up! Because of this, Ork formations that are attempting to take engage or double actions receive a +2 modifier to their action test roll. Ork flyboyz similarly relish the chance to shoot things up, and receive a +2 modifier to their action test roll when attempting to carry out interception or ground attack actions (see Aircraft).

### SPECIAL RULE

#### *Power Fields*

Some Ork war engines are protected by banks of power fields. The number each war engine has is noted on its datasheet. Power fields work in exactly the same manner as *Imperial Void Shields* (see Imperial Void Shields), with the sole exception that they may not be repaired once they have been knocked down by a hit, and will instead remain down for the remainder of the battle.
